```java
package ticTacToe.gui;

import java.awt.Graphics;

import javax.swing.ImageIcon;

import ticTacToe.component.AbstractComponent;

public class Table extends AbstractComponent {

    private ImageIcon icon;

    public Table() {
        super();
        this.icon = null;
    }

    public Table(ImageIcon icon) {
        super();
        this.icon = icon;
    }

    public Table(int x, int y, int width, int height, ImageIcon icon) {
        super(x, y, width, height);
        this.icon = icon;
    }

    @Override
    public void paint(Graphics g) {

        if(icon == null)
            return;

        int xLeft = position.x;
        int yTop = position.y;
        int width = dimension.width;
        int height = dimension.height;

        g.drawImage(icon.getImage(), xLeft, yTop, width, height, null);
    }

}
```
